**Subject:** Keep us moving toward our goal to Protect the Gardens of Stone!  
Thank you for signing our form letter to the NSW Premier, Barry O'Farrell. Thanks to supporters like you, we are sending a very clear message to the NSW Government to reject the 'Coalpac Pty Ltd Consolidation Project' proposal, Castlereagh Highway Cullen Bullen, NSW.

Your support helps move us forward toward our goal of achieving long-term protection of the Gardens of Stone region!

So far we have over 400 signatures and we are thrilled to announce the letter is now available in electronic form. You can help us get more people sending messages to reject Coalpac's consolidation project by circulating the link to your networks, post it on Facebook and tweet on twitter!

Check it out at: <http://nccnsw.org.au/content/protect-gardens-stone>

Such an easy thing to do will help us in abundance! Repeat postings on Facebook are great as not every one of your friends will pick it up the first time. Say 3 times over 2 weeks and on different days perhaps? We'll leave that in your capable hands!

The Nature Conservation Council of NSW has provided in-kind support in helping us build this cyber-action and is also supported by the great people of the Colong Foundation for Wilderness, Lithgow Environment Group, National Parks Association of NSW, Rivers SoS and The Wilderness Society NSW.

We look forward to sending you weekly updates on the campaign and thank you for engaging with us on this very important campaign. Together, we can ensure the new government doesn't start ripping apart iconic areas like the Gardens of Stone.

Kindest Regards,  
Justin.

P.S: If you haven't seen our photos from the event Sat 14th May, check them out on this public link:
