

2013 Federal Election Questionnaire

Response from Mark Littlejohn (Australian Sex Party)

Hi,

Thank you very much for giving me this opportunity to respond to the extremely valid questions that are raised.

However as one of the smaller parties we are not able to address all issues across the spectrum with definitive policy.

The Sex Party doesn't have a policy on these issues at this time. However any future policies would be informed by our Policy Mission Statement, particularly:

"The Sex Party believes that independent, peer-reviewed scientific research is essential to inform the broad spectrum of knowledge and debate in our 21st century world."

That being said however, at a personal level, I am a landholder in Kurrajong. My wife and I own 11 acres, and half of it is under a covenant to keep it as a natural reserve for native fauna and flora. I hold that Environmental Conservation is a very important issue.

So although I cannot answer your questionnaire in detail, I hope I have given you the broad scope of our policy direction. .

Regards
Mark Littlejohn
